

Calendar

The planet Geb completes a revolution around Ra, an orange dwarf star, every 336 days. The year is divided into 12 moons, each with four seven-day weeks, totaling 28 days per moon. Each moon begins on the day of the new moon. The moons are grouped into four seasons. The larger moon is Jagua. The smaller moon is Kaguya. They always remain side-by-side in orbit. Due to their proximity, they keep the same phase.

To determine a character's birthday, roll d12 for the Moon and d28 for the day.

Season	Moon	Numeral	Festival Days
Spring	Dead Moon	1	Louz (12), Aneara (20)
Spring	Blade Moon	2	Riswa (6)
Spring	Seed Moon	3	Rook (20)
Summer	Rose Moon	4	Grack (16)
Summer	Reed Moon	5	Cine (2), Zo (18)
Summer	Blood Moon	6	Foresi (11), Sleal (23)
Autumn	Harvest Moon	7	Scaepa (1)
Autumn	Pilgrim Moon	8	Tenn (19)
Autumn	Frost Moon	9	Mote (9), Tralf (11), Bel (28)
Winter	Long Moon	10	Nefer (15)
Winter	Old Moon	11	Venha (20)
Winter	Storm Moon	12	Geos (28)

Seasonal effects

During the Winter in temperate regions, all infection checks are at -1%.
